

FastTrack – The SuperTrader Program

FastTrack - The SuperTrader Program leads you through the journey of becoming a disciplined trader. This program spans across 10 sessions, each lasting 2 hours and is split into two parts. Part 1 offers a comprehensive grasp of our exclusive core trading strategy, focusing on Supply & Demand principles to recognize institutional buy /sell orders on price charts and utilize them for stock trading. Part 2 delves into the realm of Options, where students will master applying the Supply & Demand strategy in the Options market.

Part 1 – Stocks Trading

- Identify high-probability, low-risk trading opportunities using our proprietary trading strategy of Supply & Demand based on price action
- Understand different types of entries, where to place your stop loss and targets
- Understand different trading styles and know which one is suitable for you
- Know how to automate the trading process using our proprietary Trade Zone Identifier, Curve Indicator, Smart Trend Indicator Tools and Level Hunter Scanner
- Learn how to do multiple time frame analysis to improve accuracy of trade setups
- Learn how to scan for stocks for Intraday, Swing and Positional trading styles

Part 2 – Options Trading

- Learn how to combine Supply & Demand with Options to improve your trading decisions
- Understand strategies suitable for trading weekly and monthly expiry
- Learn how to select optimum strike prices using Supply & Demand
- Know the common novice mistakes in trading Options and how to avoid them
- 9 Options strategies including debit spreads, credit spreads
- Know which strategies to apply in different market conditions
- Learn how to limit your risk by hedging your Options positions
- Learn step-by-step on how to trade and use Intraday Options strategies.

FastTrack - The SuperTrader Program
